

## **UNIVERSAL HUMAN VALUES ASSIGNMENT 1**

Practice session to discuss natural acceptance in human beings.

Essay based on an understanding of Natural Acceptance in human beings.

Natural acceptance is a way to accept good things naturally. For example, our natural acceptance of trust and respect does not change with age. It does not depend on the place. Whatever we have accepted in our life, at any time of our age does not change even if, we move from one place to another. Natural acceptance does not change with time. It remains invariant with time. For example, our natural acceptance of trust and respect does not change with age. It does not depend on our beliefs or past conditions. No matter how deep our beliefs or past conditioning. As long as we refer deep within ourselves the answer will always be the same.

Natural acceptance is constantly there something we can refer to. Natural acceptance is always

there. Whatever we do, acceptance is within us. It is telling us what is right.

Natural acceptance is the same for all of us, it is part and parcel of every human being. It is part of humanness. Each one of us may have different likes and dislikes and means to live and react. If we go deep into our minds, the purpose of our work, behavior, and efforts. It is based on common goals like the need to be happy, respected, need to get prosperity. So our acceptance remains the same.
